RG104 E-1 Box 136 Oct-Dec 1885

Mint of the United States.

Philadelphia, Oct 17th 1885.

Hon Daniel M Fox Supt U.S. mint

Dear Sir

The chief Engineer called my attention about putting a wash Basin in this office so he can wash himself & told him I would ask you about it. It can be done at a very little cost & also desire to call your attention about putting in a bell for the Refining Room the bell is out of Repair and the wires run so they come in contact with the Machinery and it is not safe the way it is in. the bell is for to call the attention of the Firemen to pump water in the tank that is the only way they can get water & can put the bell in at a very little cost the men can not leave the room when they are working the House and they should have it so arranged so they could get water without leaving the room they use a great deal of water for their

purposes hoping that you will give this
your earliest attention so I can put up the
wires to day after the machinery stops.

I Remain Your Obedient
